LWIR (8-14µm)

Dear Valued Customer,

Wavelength Technology attended for the first time in **Defense, Security and Sensing 2012** exhibit and indeed it was a success for us. Success in such a way that we got a chance to see how technology moves and grew specially in infrared imaging. So we would like to say thank you for those who visited our booth and shown their interest in our IR imaging products.

In this issue, we would like to showcase our newly developed infrared lenses –INFRA®-LW17um pitch size.

For more information and product updates please visit our website www.wavelength-tech.com or email to info@wavelength-tech.com

Manual Focus Lens (384x288)
